### MOTHER

Festival de Cannes 2009 Official Selection Un Certain Regard  
South Korea's Official entry for the 2010 Academy Awards

Hye-ja is a single mum to 27 year old Do-joon. Her son is her raison d'être. Though an adult in years, Do-joon is naïve and dependent on his mother, and sometimes behaves in ways that are stupid or simply dangerous. He is a constant source of anxiety for everyone.

One day a young girl is found dead in an abandoned building and Do-joon is accused of her murder. An inefficient lawyer and an apathetic police force that closes Do-joon's case too quickly inspire his mother to act on her own – to act as Mother in its purest form. Summoning all her maternal instincts and trusting no one, she sets out to find a killer and prove her son's innocence.
